HPV AT A CROSSROADS: 30 YEARS OF RESEARCH AND PRACTICE

Congress Presidents: Guglielmo Ronco (Italy) Michel Roy (Canada)
Chairman of the Scientific Committee: Joseph Monsonego (France)

Abstract submission deadline: June 21, 2013

www.eurogin.com/2013

The conference aims at developing a full review of current scientific developments in the field of cervical cancer and human papillomavirus related diseases, raising the health profile and increasing the need for responsive health services in this area.

The event endeavors to translate scientific and evidence based research into clinical practice by offering a high quality and innovative scientific program drawn up by outstanding international leaders from the academic sector as well as professional and patient organizations.

Key objectives:

- Assessing the impact of HPV and associated cancers on public health,
- Identifying strategies to prevent and treat HPV associated diseases
- Exchanging information on early detection, new diagnostic and therapeutic procedures and prevention strategies including screening and HPV vaccination.
- Improving education and awareness of health care professionals and the general public.

Target audience:

- Clinicians from several disciplines, including:
 - Gynecologists
 - Oto-rhino-laryngologists / head & neck specialists
 - Dermato-venereologists
 - Proctologists and gastro-enterologists
 - GPs
- Basic scientists - Epidemiologists - Cytopathologists - Biologists

PROGRAM STRUCTURE

MAIN TRAINING COURSE AND PRACTICAL WORKSHOPS (November 3, 2013).

Full day training course on HPV infection and associated diseases: Fundamentals, Current standards for cervical cancer control, HPV testing in screening and management, HPV vaccination (critical issues and new developments), Management of cervical disease.

OTHER TRAINING COURSES AND EDUCATIONAL SESSIONS

- Advanced colposcopy course
- Gynecologic oncology

International Forum on HPV and Head & Neck Cancer

This Forum, part of the EUROGIN 2013 congress, includes dedicated sessions extending over 3 days on HPV infection in head & neck cancers.

Oropharyngeal cancer is one of the fastest rising cancers in many countries. This has been attributed to the rise in HPV- head and neck cancer. This new disease entity appears to have significantly better survival outcomes. However, important questions arise regarding its natural history, diagnosis, patient counselling and the best management regimens.

MAIN SCIENTIFIC AND CLINICAL SESSIONS (November 4-6, 2013).

- Screening – New evidence-based guidelines
- Controversies in cervical cancer screening and prevention
- Molecular-based strategies for primary screening of cervical cancer
- Vaccination programs: lessons learned
- HPV testing (several sessions, including sessions on testing methods and quality control)
- HPV prophylactic vaccines
- Anal HPV associated diseases
- HPV and other cancers
- Therapeutic vaccines: looking into the future
- Cervical colposcopy
- Cyto-histology
- Carcinogenesis
- Genotyping
- Modeling
- Molecular markers (several sessions)
- HPV associated diseases in non anogenital sites
- HPV based screening strategies 1
- Low risk HPV infection
- HPV infection: from molecular biology to diseases
- Vaginal self-sampling
- Low resource settings

Abstract submission: The program includes several free communication and poster sessions for the presentation of submitted papers. **Abstract submission deadline: June 21, 2013** Details on <http://www.eurogin.com/2013/index.php/abstracts/abstract-guidelines>

CME (Continuing Medical Education)

EUROGIN 2013 is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) for a maximum of 21 hours of European external CME credits. EACCME credits can be converted to AMA PRA Category 1.
