HPV INFECTION AND RELATED CANCERS Translating Research Innovations into Improved Practice

Congress Presidents: Javier Cortes (Spain) Jorma Paavonen (Finland)
Chairman of the Scientific Committee: Joseph Monsonego (France)

www.eurogin.com/2015

The conference aims at developing a full overview of current scientific advances in the field of cervical cancer and other HPV related diseases. The event focuses on translating scientific and evidence based research into clinical practice.

Key objectives:

- Assessing the impact of HPV and associated cancers on public health,
- Identifying strategies to prevent and treat HPV associated diseases
- Exchanging information on early detection, new diagnostic and therapeutic procedures and prevention strategies including screening and HPV vaccination.
- Improving education and awareness of health care professionals and the general public.

Target audience:

- Clinicians from several disciplines, including:
 - Gynecologists
 - Oto-rhino-laryngologists / head & neck specialists
 - Proctologists and gastro-enterologists
 - GPs
- Students, residents and young researchers
- Basic scientists - Cytopathologists - Biologists

PROGRAM STRUCTURE

TRAINING COURSE

February 4, 2015.

• Full day training course on HPV infection and associated diseases, including current standards for cervical cancer control and management.

BASIC AND COMPREHENSIVE COLPOSCOPY COURSE

February 7, 2015.

Separate registration required.

The program includes an International Forum on HPV and Head & Neck Cancer

Oropharyngeal cancer is one of the fastest rising cancers in many countries. This has been attributed to the rise in HPV-related head and neck cancer. This new disease entity appears to have significantly better survival outcomes. However, important questions arise regarding its natural history, diagnosis, patient counselling and the best management regimens.

Several congress sessions are dedicated to this topic.

MAIN SCIENTIFIC AND CLINICAL SESSIONS

- HPV screening
- HPV prophylactic vaccines
- HPV testing and molecular markers
- HPV infection
- Colposcopy
- Therapeutic vaccines
- Triage of HPV positive women
- Head & neck HPV associated diseases
- Adenocarcinoma of the cervix
- Management of vulvar carcinoma
- Clinical decision making

OTHER SCIENTIFIC SESSIONS

- Low resource settings
- Epidemiology
- Biology and Immunology
- Epidemiology
- Carcinogenesis
- Anus and male HPV related diseases
- Self-sampling
- Health economics and modeling
- HPV associated diseases in non anogenital sites
- Patient education (Women Against Cervical Cancer Forum)

CME (Continuing Medical Education)

EUROGIN 2015 is accredited by the European Accreditation Council for Continuing Medical Education (EACCME) for a maximum of 21 hours of European external CME credits. Through an agreement between the European Union of Medical Specialists and the American Medical Association, physicians may convert EACCME credits to an equivalent number of AMA PRA Category 1 Credits™. Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.
