

EUROGIN 2015

International Multidisciplinary Congress

Sevilla, Spain, February 4-7, 2015

HPV Infection and Related
Cancers: Translating Research
Innovations into Improved
Practice

ABSTRACT SUBMISSION DEADLINE: **OCTOBER 1, 2014**

HPV AND HEAD & NECK FORUM

Oropharyngeal cancer (OPC) is one of the fastest rising cancers in many countries. This has been attributed to the rise in HPV related head & neck cancer. This new disease entity appears to have significantly better survival outcomes. The knowledge base in this multidisciplinary field is quickly developing. The goal of the forum is to discuss current controversies in the diagnosis, management and prevention of the diseases and understanding the role of sexual behavior in oral transmission and risk.

Important questions arise regarding natural history, diagnosis, patient counseling and the best management regimen of HPV associated head & neck cancer. The role of surgery and chemotherapy according to HPV status and perspective of immunotherapy will be presented.

PROGRAM COMMITTEE

Brakenhoff, Ruud – Netherlands
Burtness, Barbara – USA
Chaturvedi, Anil – USA
Dalianis, Tina – Sweden
Fakhry, Carole – USA

Gillison, Maura – USA
Kreimer, Aimée – USA
Lacau St Guily, Jean – France
Lefebvre, Jean-Louis – France
Licitra, Lisa – Italy

Mehanna, Hisham – UK
Pai, Sara – USA
Quer, Miquel – Spain
Roberts, Sally – UK
Syrjänen, Stina – Finland

LIST OF SESSIONS

THURSDAY, FEBRUARY 5, 2015

14.45 – 16.00 Oral Communications: HPV Infection and Head & Neck cancers

Coffee Break

16.30 – 17.30 Oral Communications: HPV Infection and Head & Neck cancers

FRIDAY, FEBRUARY 6, 2015

08.30 – 10.00 Scientific Session: HPV driven oropharyngeal cancers (OPC) – the global view

Main Scientific Session: EUROGIN Roadmap 2015: Management & Control of HPV Associated Diseases - How HPV knowledge has changed our practices

Coffee Break

14.45 – 16.30 Scientific Session - The HPV value for detection, control and management of oropharyngeal cancers (OPC)

Coffee Break

17.00 – 18.00 Scientific Session - Decision making in management of oropharyngeal cancers (OPC)

18.00 – 19.15 Scientific Session: HPV and H&N - Controversies & key questions

HPV AND HEAD & NECK FORUM

MAIN TOPICS

- Burden of HPV H&N cancer: a new entity? An emerging epidemic?
- HPV distribution & epidemiology
- Etiology of HPV driven OPC
- Is sexual behavior related to H&N cancers
- Disparity & risk factors for HPV H&N cancers
- HIV - Immunosuppressed patients: are they at risk of H&N cancers?
- Natural history - Carcinogenesis
- Biology of integration in OPC
- Role of immunity
- Perspective of immunotherapy
- EUROGIN Roadmap 2015: Management & control of HPV associated diseases - How HPV knowledge has changed our practices
- Are HPV H&N cancers preventable by screening and early detection?
- Expected vaccination impact of HPV H&N cancers
- Diagnosis & detection
- HPV detection & new biomarkers for HPV+ women
- Biomarkers in HPV+ tumors
- The role of HPV status in the treatment option of HNCC
- Treatment:
 - Non surgical
 - Surgical - Robotic surgery
- Radiosensitivity of HPV positive tumors
- Prognosis & impact of HPV status in recurrent/metastasis OPC
- Ongoing trials
- Decision-making in H&N cancers
- Patient counseling
- Controversies and key questions

TARGET AUDIENCE

**Clinicians from several disciplines including:
Oto-rhino-laryngologists / head & neck specialists**

Basic scientists – Epidemiologists

CME (CONTINUING MEDICAL EDUCATION)

EUROGIN 2015 will be submitted for CME accreditation via the European Accreditation Council for Continuing Medical Education (EACCME).

ABSTRACT SUBMISSION

The program includes several oral communication and poster sessions for the presentation of submitted papers.

Abstract submission deadline: October 1, 2014.

Details on: www.eurogin.com/2015/index.php/abstracts/abstract-guidelines

For further information, including the program, online registration and abstract submission, please visit the conference website: www.eurogin.com/2015 or contact: admin@eurogin.com
