

MTC Main Training Course		FC Free Communications		W Workshops		HN HPV and Head & Neck Forum		WS Local Workshop		Sunday, October 8	
Auditorium		G 102		G 104		G 105		G 106-107			
8:30	MTC1 Global focus on HPV infection to diseases: the rising knowledge by sites and gender	W2 Workshop on HPV Immunization	W1 Advanced Colposcopy Course <i>(access with Full Congress Pass only or separate registration)</i>		HN1 Natural history of HNSCC					8:30	
10:00	Coffee Break										
10:30	MTC2 Cervical cancer control in high income countries - current standards and challenges	W2 Workshop on HPV Immunization			HN2 Epidemiology of HPV driven HNSCC			Local WS Netherlands / Flanders in Dutch/Flemish language			10:00
12:00	Coffee Break										
12:15	Satellite symposium INCELL				HN3 Submitted papers			Lunch Break		12:10	
13:45	MTC3 Cervical cancer control in low and middle resource countries	W3 TC for CC Screening Coordinators and Evaluators	W4 Vulvar Diseases Course I	HN4 Evidence and controversies on impact of HPV on OPC	Local WS Netherlands / Flanders			Coffee Break		13:10	
15:30	Coffee Break										
16:00	MTC4 New Horizons in translational research	W3 TC for CC Screening Coordinators and Evaluators	W4 Vulvar Diseases Course II (Vulvodynia)	HN5 Management of HPV driven OPC	Local WS Netherlands / Flanders					15:40	
17:30	FC1 Screening methods 1	FC2 Low Resource Settings	FC3 Genital Neoplasia	HN6 Submitted papers	FC4 HPV negative cancers					17:00	
19:00	Opening Ceremony followed by Welcome Reception										
19:15											
20:30											

MSS Main Scientific Sessions		SS Scientific Sessions		FC Free Communications		HN HPV and Head & Neck Forum		CS Clinical Sessions		Monday, October 9	
Auditorium		G 102-103		G 104		G 105		G 106-107			
8:00	MSS1 Gender neutral HPV vaccination	SS1 HPV assays: from available HPV tests to the next generation of testing	FC5 HPV testing 1	HN7 Update on immunotherapy trials in HNSCC	CS1 Primary HPV vs co-testing. Debate session					8:00	
9:30	MSS2 Long term protection of screening and vaccination programs	SS2 HPV communication challenges	FC6 Epidemiology 1	HN8 Early antigen HPV serology in head & neck cancer	CS2 Cervical cancer screening guidelines					9:30	
11:00	Coffee Break										
11:30	Satellite symposium MSD										
12:45	Satellite Symposium QIAGEN										
13:00											
14:15	MSS3 Triage of HPV-positive women	SS3 HPV related cancers in immunocompromised recipients	W5 Workshop Francophone	HN9 Screening and prevention in HPV-driven OPC	FC7 Vaccines 1					14:15	
15:45	Coffee Break										
16:15	MSS4 Consequences of implementation of HPV screening for cervical cancer	SS4 Therapeutics against HPV and related diseases	W5 Workshop Francophone	HN10 Recurrent respiratory papillomatosis	FC8 Self-sampling					16:15	
17:45	Satellite symposium HOLOGIC										
18:00											
19:15											
19:30											

MSS Main Scientific Sessions		SS Scientific Sessions		FC Free Communications		CS Clinical Sessions		Tuesday, October 10			
Auditorium		G 102-103		G 104-105		G 106		G 107			
8:00	MSS5 Targeting high risk populations for HPV associated cancers (cervix, anus, OP)	FC9 Vaccines 2	CS3 Building consensus for self-sampling	FC10 HPV testing 2	FC12 Methylation (ends 9.45)					8:00	
9:30	MSS6 New biomarkers clinical value	SS6 20 years of HPV research - long term follow-up	CS4 Reproductive morbidity after treatment for CIN	FC11 Screening 1	FC13 Modelling (starts 9.45)					9:30	
11:00	Coffee Break										
11:30	Satellite symposium BD										
12:45	Satellite symposium ROCHE										
13:00											
14:15	MSS7 Impact of national HPV vaccine programs	SS7 Renewed population screening for cervical cancer in The Netherlands	CS5 Risk of HPV transmission among males and females	SS9 Vaginal microbiome in women	FC14 WACC Health Education					14:15	
15:45	Coffee Break										
16:15	SS11 Vaccine surveillance: monitoring adverse events and safety program evaluation	SS8 Screening regimens in vaccinated women	CS6 Colposcopy	SS10 HPV-induced anal cancer	FC15 WACC Health Education					16:15	
17:45	SS12 What have we learnt from population-wide HPV vaccination programs	FC17 Screening 2	FC18 Diagnostic procedures	FC19 Epidemiology 2	FC16 Molecular and biological markers 1					17:45	
19:15											

SS Scientific Sessions		FC Free Communications		CS Clinical Sessions		W Workshops		Wednesday, October 11			
G 102-103		G 104		G 105		G 106		G 107			
8:00	SS13 Vaccines, beyond the scope: targeting populations at risk	SS16 CISNET	CS7 Post treatment follow-up	FC20 Self, urine and plasma sampling			W6 Simposio en habla hispana		8:00		
9:30	SS14 CoheaHr	SS17 Epidemiology - natural history	CS8 Anal HPV infection and diseases in women	FC21 Screening methods 2					9:30		
11:00	SS15 HPV Faster	SS18 Immunology and serology	FC23 Males and anus	FC22 Molecular and biological markers 2			W7 Workshop Lusófono		10:30		
12:30											
13:30											

The Exhibition and the Poster Areas are closed on Wednesday, October 11.
