MONACO
DECEMBER 4-7,
2019

ACCELERATING DETECTION AND ELIMINATION OF HPV AND RELATED CANCERS

Congress Presidents: Walter Kinney (USA), Matti Lehtinen (Finland)

December 4-7, 2019 • Monaco
POST MEETING REPORT

ATTENDANCE

With 1 282 delegates from 75 different countries, the attendance level of the EUROGIN 2019 congress was lower than in previous years.

The incorporation of a program strand in French language (French Workshop) had a much lower impact than expected with regard to attendee numbers from France. This was mainly due to the disruption of transport (national railway strike in France and cancellation of many flights).

The geographical breakdown of attendees did not change a lot, with Western European countries accounting for 59 %, Eastern Europe 11 %, North America 14 %, Latin America 3 % (very low), and Asia/Oceania 11 % (a significant increase compared to 2018 and back to the long-term average).

1 282

delegates

75

countries

GEOGRAPHICAL BREAKDOWN

- **58,8%** Western Europe
- **14,4%** USA & Canada
- **11,2%** Eastern Europe
- **10,6%** Asia (*incl. Australia, NZ, Turkey*)
- **2,8%** Latin America (*incl. Mexico*)
- **2,2%** Africa / Middle East / Gulf countries

PROFESSIONAL CATEGORY BREAKDOWN

- **57%** Gynecologists
- **20%** Biologists, epidemiologists, immunologists research, public health sector, others
- **15%** Pathologists
- **8%** Head and neck specialists

ATTENDANCE of sessions

Almost all sessions showed very satisfactory levels of attendance.

The program featured the following types of sessions:

4

Main Training Course modules

6

Specialized Workshops

9

Main Scientific Sessions

1

local language workshop (French 1 full day)

16

other Scientific Sessions

29

Free Communication sessions

11

Clinical Sessions

90

Posters

9

HPV and Head & Neck Forum sessions

Sessions on clinical topics continued to show very high attendance levels. Most scientific sessions and specialized workshops - including the HPV and Head & Neck Forum - were well attended.

CME
(Continuing Medical Education)

The **EUROGIN 2019 congress – Accelerating Detection and Elimination of HPV and Related Cancers**, Monaco, 04/12/2019 - 07/12/2019 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) for a maximum of 26 European CME credits (ECMEC® s).

Live educational activities, occurring outside of Canada, recognised by the UEMS-EACCME® for ECMEC® s are deemed to be Accredited Group Learning Activities (Section 1) as defined by the Maintenance of Certification Program of the Royal College of Physicians and Surgeons of Canada.

SPEAKERS, PRESENTATIONS & ABSTRACTS

469

Speakers and
Posters presenters

211

Faculty Members (*invited speakers,
including the local scientific committee*)

212

Non-invited Speakers
presenting free communications

90

Posters

558

Oral presentations*

*These include presentations in the following sessions:

Main Training Course, Main Scientific Sessions, Scientific sessions, Clinical Sessions, Free Communications, Specialized Workshops, Specific language Workshop.

All abstracts are available for download on the EUROGIN 2019 website
www.eurogin.com/2019

EUROGIN GRANTS

The EUROGIN Organizing Committee awarded several grants for the best proffered papers submitted by young researchers and applicants from low-income countries. The grants consisted of free registration and in some cases also accommodation and travel support.

EXHIBITION

The exhibition area offered **generous space and easy access** for stand builders.

33

exhibitors

500 m²

of exhibits

Exhibitors from all over the world presented a wide range of products and services, many of them specifically related to HPV infection and related diseases. Many delegates showed interest in the exhibition and used the opportunity to learn more about recent technological developments.

SATELLITE SYMPOSIA

7 sponsored satellite symposia were organized by industrial partners at lunchtime or in the afternoon. Attendance was generally very satisfactory with variations according to the topics and time slots. Most attendees at satellite symposia are highly motivated to learn about the data and experience offered.

EUROGIN WEBSITE IMPACT

The EUROGIN website continues to **prove its attractiveness.**

Average number of visitors, during 2019

761 / week

Peak period of visitors

+ 3 071 / week

EUROGIN CONGRESS APP

The **EUROGIN 2019 Congress App** offered:

- **Practical information** (floorplan, exhibitors)
- Quick access to **all program details with search functions.**
- Links between **presentations and abstracts.**

This direct access to specific abstracts was particularly appreciated. The congress app was used by an increasing number of delegates.
