INNOVATIONS IN HPV RESEARCH AND GLOBAL CANCER SOLUTIONS AN INTERNATIONAL COLLABORATIVE CONFERENCE

Congress Presidents | **Hans Berkhof (Netherlands)** • **Miriam Elfström (Sweden)**

POST MEETING REPORT

EUROGIN 2024

INTERNATIONAL MULTIDISCIPLINARY HPV CONGRESS

MARCH 13–16 • STOCKHOLM, SWEDEN

Since its creation three decades ago, the EUROGIN congress has gained a strong reputation as one of the leading international conferences on HPV infection and associated cancers. The meeting offers a forum for high-level scientific exchange involving multiple disciplines, with the aim to translate research into clinical practice. Thanks to the top-ranking program committee the congress program offers up-to-date scientific information on the full range of HPV-related diseases.

Indeed the prospect of eliminating HPV related cancers at the horizon 2030 as announced by WHO seems to be a promising objective evidenced by the wealth and density of the papers presented during this conference. However, substantial challenges remain and our efforts must continue to ensure that today's existing tools become available and widely implemented throughout the world.

This year we have given a prominent place to young researchers, allowing them to present their work in a dedicated session and by offering a significant number of grants to candidates from countries with limited resources.

As usual, the EUROGIN congress will offer a variety of educational opportunities for attendees: specialized workshops, scientific sessions, clinical sessions, free communications and poster presentations.

Let me share with you our appreciation and our thanks to the scientists like you for your exciting research and innovations.

On behalf of the EUROGIN Organizing Committee, I am pleased to welcome you to EUROGIN 2024!

Joseph MONSONEGO

Chairman of the Scientific Committee

ATTENDANCE

With **1,638 participants** from **78 different countries**, the attendance level of the EUROGIN 2024 congress **reached a record level**.

CONGRESS FORMAT

The event was held in **face-to-face format only**, without any virtual attendance options.

1,638

registered participants

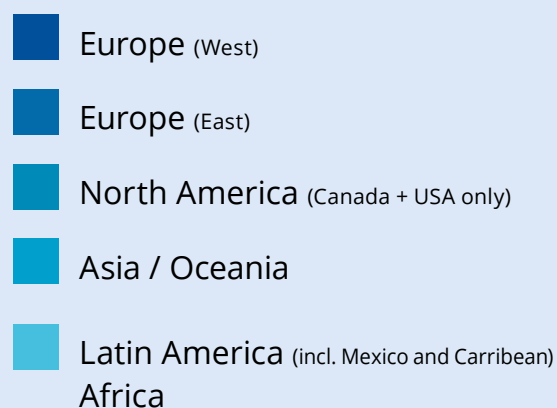

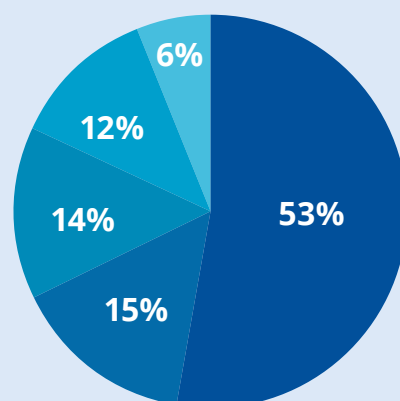

78

different countries

BREAKDOWN

GEOGRAPHICAL BREAKDOWN

The geographical breakdown of attendees **remained in line** with the numbers experienced in the past.

PROFESSIONAL PROFILES BREAKDOWN

HCPs (Health care professionals) represented **more than 60%** of all participants attending in-person.

Of these, **70% were gynecologists**, and **30% other specialties**: oncologists, virologists, ENT specialists, public health specialists, etc.).

Exhibitor staff (booth personnel + scientific) **accounted for 10%** of the total number of participants.

PROGRAM STRUCTURE

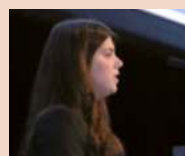

- 35** Scientific Sessions
- 6** Clinical Sessions
- 24** Free Communications
- 9** HPV and Head & Neck Sessions
- 2** Specialized Workshops
- 1** Half-day Workshop on Nordic Countries
- 1** Young Scientists Award Session

5 Industry Sponsored Satellite Symposia

102 Posters

Young Scientists Award

A Young Scientists Award was **organized for the second time, integrated in the Welcome Ceremony**. This innovative session **proved very popular**.

HPV and AI Forum

For the first time ever, the EUROGIN 2024 Congress included a half-day forum dedicated to exploring the potential of artificial intelligence in screening, diagnostics and management of HPV-related precancerous and cancerous conditions. **This innovative program section was much appreciated and well attended.**

CME ACCREDITATION (Continuing Medical Education)

The EUROGIN 2024 Congress, Stockholm, Sweden 13/03/2024 - 16/03/2024 has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with **24 European CME credits** (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

SPEAKERS, PRESENTATIONS & ABSTRACTS

495

speakers & poster presenters

205

faculty members

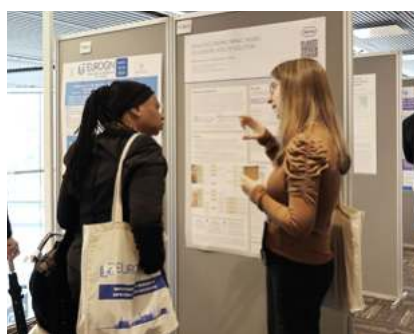

102

posters

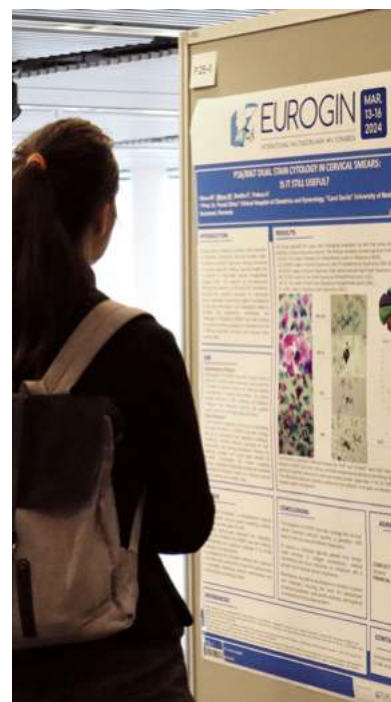

484

oral presentations*

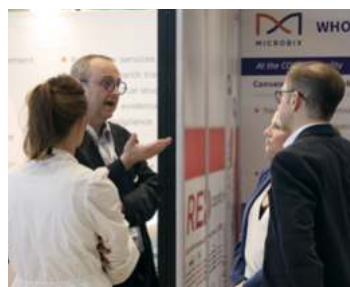

**These include presentations in the following sessions: Scientific Sessions, Clinical Sessions, Specialized Workshops, HPV and Head & Neck Sessions, Welcome Ceremony, Free Communications.*

They do not include presentations in sponsored symposia.

EUROGIN GRANTS

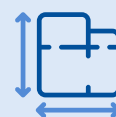

The EUROGIN Organizing Committee awarded several grants for proffered papers submitted by young researchers and applicants from low-income countries. All grants included free registration, and administrative support and several grants also covered accommodation and travel.

EXHIBITION

25
exhibitors

300m²
of exhibits

SATELLITE SYMPOSIA

5 sponsored satellite symposia were organized by industrial partners at lunchtime or in the afternoon. Attendance was generally very satisfactory with variations according to the topics and time slots. Most attendees at satellite symposia are highly motivated to learn about the data and experience offered.

TESTIMONIALS

“

The best thing about EUROGIN was the opportunity to network and meet thought leaders in the space of HPV associated cancers. I particularly enjoyed the focus on under screened and never screened populations and addressing barriers to cervical screening. It was very important to hear from resource poor countries as well as discussing cohorts of women who live in high income countries but still face unsurmountable barriers to accessing screening.

”

“

The update in all areas of HPV-related diseases and the attendance of great scientists in the field

”

“

The access to the latest scientific research is absolutely amazing.

”

“

The pro/con debates embedded within the scientific sessions were particularly engaging. It was important to hear arguments on both sides of emerging issues facing the head and neck field. The head and neck sessions were incredible. The meeting had engaging discussions following presentations of critical topics and impactful networking opportunities embedded in the program. The scientific sessions covered a range of important topics with key experts from both the US and Europe leading the talks on the hottest topics in head and neck cancer research.

”

“

Excellent presentation of results from different studies from all over the world!! Promising results on the attempt to eliminate HPV and cancer!! Very well organized !! Well done Eurogin 2024!!

”

“

Love the camaraderie and cross pollination between specialities.

”

“

EUROGIN is a forum with great diversification of subjects

”

“

The scientific program was terrific, with a diverse range of speakers and cutting edge topics.

”

TESTIMONIALS

“

*I like the diverse topics for a diverse audience at EUROGIN.
It touches on prevention, early detection, treatment and public health.
An event to put a puzzle together.*

”

“

*I could meet people from across the globe and get updated with events
and research happening across the world and networking to produce
the best multidisciplinary research projects.*

”

“

*Having all the biggest names
in HPV at the same conference,
presented their latest, often
unpublished work, was just
a fantastic experience.
You cannot get this anywhere else.*

“

*The networking possibilities
at EUROGIN were endless, it is
very easy to connect with scientific
and clinical experts, discussing
innovations and challenges.
Good value for money!*

”

“

*It covers areas I am interested
in extensively, namely genotyping,
self-sampling, triaging strategies
and validation.*

”

“

*Unique experience intermingling
with other researchers
from different disciplines
was excellent.*

”

“

*I really enjoyed the debate session, it allowed me to have a better
understanding of current issues/ topics in the HPV world.*

”

“

*Good scientific program
and good speakers.*

”

“

*The huge amount of interesting
sessions and speakers.*

”

“

*I enjoyed the type of research
presented and the many sessions
to choose from.*

”

“

*Meeting experts and colleagues
from all over the world is great.*

”
